

The following is an indication of the payments to suit your requirements.

Flexible Leasing Options:	Total Price (Ex VAT)	<u><u>£7,678.00</u></u>
2 Years - 24 Monthly Payments of	£368.08 + vat	
3 Years - 36 Monthly Payments of	£257.90 + vat	
4 Years - 48 Monthly Payments of	£203.16 + vat	
5 Years - 60 Monthly Payments of	£170.53 + vat	

Payments are subject to credit approval and valid for 28 days.

What does the flexible leasing package offer you?

→ **Keep your business in touch with the latest technology as it develops**

Our flexible leasing package will provide you with opportunities to add or exchange equipment during the course of the agreement, without any additional budgetary outlay. This provides a guaranteed protection against equipment obsolescence which would not be possible if you had purchased the equipment outright.

→ **Modern Equipment, fixture & fittings with no large capital outlay**

Leasing enables you to install all the latest equipment, fixtures & fittings without incurring a high capital outlay, leaving money available for use within the business. It can also avoid having to delay the implementation of your expenditure plans until sufficient funds become available.

→ **Flexible Payment Options**

Payments can be structured to meet cash flow, budget or policy requirements, whilst leaving valuable existing credit lines intact.

→ **Payment to Reflect Usage**

Your project is paid for as it is used over its useful working life.

→ **Tax Efficient**

Lease payments can be fully tax allowable.

→ **More than Just Hardware**

Your flexible agreement can include all equipment and installation of your project

→ **Hedge against inflation**

Payments are fixed for the full period of the lease. This enables accurate forward budgeting.

→ **Total Flexibility**

As a business is constantly changing their future demands become hard to predict. Increasing constraints on budgets also mean that financial resources need to be stretched even further.

As a result businesses have to find new ways to get the most out of their **financial budgets**. The Leasing plan provides a flexible and alternative approach to financing your entire project enabling you to maintain, upgrade and build on your existing resources, whilst conserving working capital.
